

Our Story

Beaver Steel Services has been a family owned and operated company since 1989. Originally servicing the HVAC sheet metal contractors, Beaver Steel has grown to service manufactures, fabricators and job shops within a 300 mile radius of Pittsburgh. Beaver Steel operates out of a 140,000+ square foot facility located outside of Pittsburgh Pennsylvania.

Our Mission

Beaver Steel Services is committed to providing FIRST CLASS customer service by thoroughly understanding our customer's needs and consistently delivering steel, industrial products, and services to our customers that meet or exceed their expectations.

We look forward to quoting your steel requirements and being part of an efficient supply chain for your business...call us today!

Beaver Steel Services

A "Value-Added" Steel Service Center

First Class Facility

- 140,000+ square foot temperature controlled facility allows Beaver Steel to stock a wide variety of coil sizes and material types to serve our customer's needs.

Large Inventory

- Large steel inventory of pattern-width coils and sheets allows Beaver Steel to offer short lead-times and just-in-time delivery.

Company-Owned Trucks

- Beaver Steel has a company-owned fleet of six fully sided and tarped trucks that are driven by professional and courteous Beaver Steel employees, with a on-time delivery rate of over 97%.

Valuable Processes...Great Service

Multi-Blanking

Beaver Steel has two cut to length, multi-blanking lines with leveling capabilities of 10 gauge (.135) to as light as 30 gauge (.010). First operational shearing is available on one of our four re-square shears. Beaver Steel also offers outside toll processing services.

Value-Added Service

Beaver Steel offers value-added processing with custom built skids, KanBan stocking programs and just-in-time delivery.

Our Commitment

Beaver Steel focuses on relationships by maintaining a high standard of quality, customer service, and value added processes. Beaver Steel Services is truly a "value added" steel service center.
